

# Minimize Soiling Maximize Production

**Eliminate Soiling losses and get up to 30% more production with RST CleanTech.**

## **Increases Production**

Minimize soiling losses through weekly cleaning. Improve your solar production significantly.

## **Safer**

The system is fully automated – no more people on roofs or property.

## **Robust**

Our patented system is based on tried and tested drip irrigation technology – almost no moving parts.

## **Protects Warranties**

Soft, clean water cleans at night to avoid thermal stress. No chemicals, abrasives or high pressure.

## **Proven Technology**

Launched in 2011 and now installed on more than 1.5GW of projects worldwide.

## **Control via App**

Use the RST CleanTech App on your smartphone to control when panels are cleaned.

**RST CleanTech is the world's leading solar panel cleaning technology, cleaning over 2,000,000 panels around the world – every day.**
